DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-6, 12-20, 32, 33, 35 and 36, drawn to an image pickup apparatus comprising a first addition portion for adding signals in the unit cell, classified in class 348, subclass 302.
- II. Claims 7-11, drawn to an image pickup apparatus comprising a common output line and a control portion for adding pixels of the same color outside of the unit cell, classified in class 348, subclass 272.

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as an image pickup apparatus not drawn to a control portion for adding pixels of the same color outside of the unit cell. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
